Join Forces in Free Cyber Brothel VR Experience

BaDoinkVR To Release Free VR Cybrothel Berlin Experience

BARCELONA, (November 1, 2021) - Virtual reality porn studio **BaDoinkVR** has teamed up with Berlin-based sex doll creator Kokeshi Cybrothel Berlin to merge the world of high-tech sex dolls with 180 degree stereoscopic virtual reality. The upcoming film starring Finnish actress Angie Lynx further explores the fusion of real-life experience with virtual reality. Through this project, BaDoinkVR and Kokeshi hope to give a taste of the intimacy and realism that a premium cyber brothel can provide. The scene, shot and produced in Barcelona, will be available for free to stream or download in VR at BaDoinkVR.

In October of 2021, the Kokeshi Cybrothel team flew to Barcelona to shoot a VR scene featuring their futuristic sex doll and Finnish adult actress Angie Lynx. The project combines a cyberpunk motif with Kokeshi's cyber brothel aesthetic in a 180-degree stereoscopic virtual reality experience. The scene transports the user to a futuristic brothel in which their desire shifts between a humanoid sex worker and a living, breathing human, portrayed by Angie Lynx.

Created by Berlin-based writer, Alexis Smiley Smith, Austrian filmmaker, Phillip Fussenager, and Sujmo, an artist and creative director from Cologne, Kokeshi Cybrothel uses their narrative design aesthetics to create interactive spaces to connect all consensual beings with sex and technology.

"We're creating this other layer of reality that's super textured with sci-fi and a kind of futuristic landscape. You're actually having this kind of user experience where you're in the VR world interacting with Angie Lynx," explained Smiley Smith.

To merge the experiences of humanoid and human interaction BaDoinkVR utilized a mix of practical effects and post-production techniques. Using a high-definition projector, they coordinated complex transitions between the sci-fi world and the "real world" in an ambitious effort to transport the user through "two different dimensions" of time and space.

"We are coordinating shooting the same shot with two cameras and then mixing them through a physical projector that we're putting some graphics on top of the actress," said director, Lucas Elliot. "We are using stereoscopic cameras, so we can see how the physicality of the graphics affects the environment," he continued.

The scene will be available to download for free in 7K VR from December 22, 2021, until January 09, 2022, at BaDoinkVR.com.

About BaDoinkVR

BaDoinkVR is the world's leading virtual reality adult entertainment production company. Their premiere paid subscription service offers both 180 and 360-degree immersive videos featuring motion tracking, binaural audio, and today's hottest adult entertainment stars. BaDoink.com initially launched in 2006 as a premier online adult entertainment destination with a robust proprietary technology platform. BaDoinkVR was named AVN's "Best Virtual Reality Site" in 2018, "Internet Company of the Year" by the Free Speech Coalition, and the "Adult Site of the Year: Virtual Reality" by XBiz in 2016. About Kokeshi Cybrothel Berlin

Launched as a sex tech start-up in April 2020, Cybrothel Berlin is a futuristic adult playground where clients can enjoy a variety of sophisticated AI experiences including pleasure dolls and VR technology. Each room and pleasure doll character is unique, providing a high design concept to fulfill fantasy and fetish. Through their web platform, clients begin an interactive journey leading to one of several customized experience rooms. As part of their mission, all interactions are anonymous and require no human contact. Cybrothel Berlin caters to all genders, solo adventurers, couples, or any adult human constellations looking to experiment or simply try out new cybersexual adventures. For more information, visit the consumer website at www.cybrothel.com or on social media at [@kokeshiberlin](https://twitter.com/kokeshiberlin).
